REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly suggest a method as claimed including selecting an implant having mechanical characteristics which resist deflections of said wall and urge a deflected tissue to return to a rest state formed from a material selected to induce a fibrotic response and implanting the implant as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Double Patenting

The provisional non-statutory obviousness-type double patenting rejection over 10/825,483 has been withdrawn because the applications were filed on the same day and this application claims the base invention.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Samuel G. Gilbert whose telephone number is 571-272-4725. The examiner can normally be reached on Monday-Friday 6:30-4:00.
